

## Keep safe, stay alive

One, two, three, four, five. Keep safe. Stay alive!

Lesson one – you must take care  
Cars are zooming everywhere  
Always look and never run  
Don't forget while having fun.

Lesson two – it's dark at night  
Wear reflective clothes so bright  
Then the driver can see you  
And slow right down as he goes through.

Lesson three – you all should go  
Where it's safe to walk, you know  
If there's a pavement you can use  
That's the place that you should choose.

Lesson four – before you drive  
Seat belts help you stay alive  
So click it in before you ride  
And everyone is safe inside.

Lesson five – tell your family  
And friends that you will see  
You grown-ups drive and please take care  
No phoning, speeding. BE AWARE!

Lesson one – you must take care  
Cars are zooming everywhere  
Always look and never run  
Don't forget while having fun.

One, two, three, four, five. Keep safe. Stay alive!  
One, two, three, four, five. Keep safe. Stay alive!  
One, two, three, four, five. Keep safe. Stay alive!  
One, two, three, four, five. Keep safe. Stay alive!
