

When the circus comes to town

Song

When the circus comes to town
With the lions, the horses and clowns
You'll have lots of fun
Come and see with everyone
You'll have the time of your life.

The strong man lifts weights with one hand
And the jugglers turn cartwheels and land
You'll have lots of fun
Come and see with everyone
You'll have the time of your life.

The trapeze artists fly overhead
There is a ringmaster dressed all in red
You'll have lots of fun
Come and see with everyone
You'll have the time of your life.

See the clowns make everyone smile
As they all fall down in a pile
You'll have lots of fun
Come and see with everyone
You'll have the time of your life.

When the circus comes to town
With the lions, the horses and clowns
You'll have lots of fun
Come and see with everyone
You'll have the time of your life.
