

Our colourful world – ANSWERS

1. Colour it in!

Colour in the planets.

		
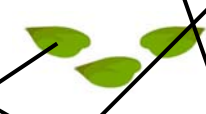

red	yellow	pink
		
blue	green	blue and green

2. Match them up!

Draw a line to match the picture and the word.

					
					
clouds	desert	leaves	volcano	smoke	forest
shells	plants	sun	flowers	grass	sea

Note: Arrows in the original image connect the pictures to the words: Desert to desert, Shells to shells, Sun to sun, Flowers to flowers, Leaves to leaves, Volcano to volcano, Smoke to smoke, Forest to forest, Grass to grass, and Sea to sea.

3. Fill it in!

Write the missing colours in the sentences.

- a. Everything on this planet is red. There is a forest. In the forest there are trees and leaves.
- b. Everything on this planet is yellow. There is a sky. In the sky there are clouds. There is a volcano and smoke too.
- c. Everything on this planet is pink. There is a sea. There are shells and plants in the sea.
- d. Everything on this planet is blue. This planet is very hot. There is a big sun and a desert with sand. And look! There are plants too.
- e. Everything on this planet is green. This planet is very cold and there is snow. There are clouds too.
- f. It's planet Earth. The sky is blue and the sun is yellow. The grass is green and the flowers are red and pink.

4. Write and draw!

Children draw and colour their own planet, then write about it.
