

Our colourful world

1. Colour it in!

Colour in the planets.

red	yellow	pink
blue	green	blue and green

2. Match them up!

Draw a line to match the picture and the word.

clouds	desert	leaves	volcano	smoke	forest
shells	plants	sun	flowers	grass	sea

3. Fill it in!

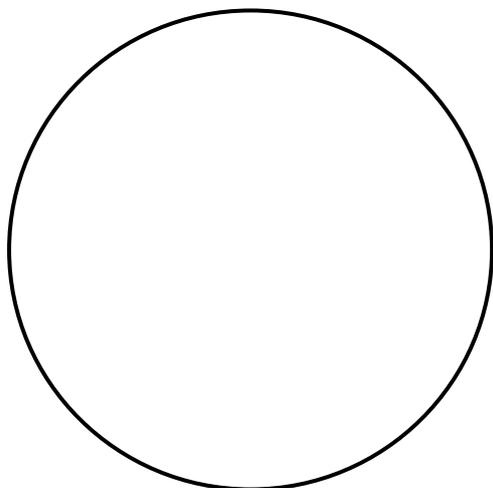

Write the missing colours in the sentences.

- a. Everything on this planet is _____. There is a forest. In the forest there are trees and leaves.
- b. Everything on this planet is _____. There is a sky. In the sky there are clouds. There is a volcano and smoke too.
- c. Everything on this planet is _____. There is a sea. There are shells and plants in the sea.
- d. Everything on this planet is _____. This planet is very hot. There is a big sun and a desert with sand. And look! There are plants too.
- e. Everything on this planet is _____. This planet is very cold and there is snow. There are clouds too.
- f. It's planet Earth. The sky is _____ and the sun is _____. The grass is _____ and the flowers are _____ and _____.

4. Write and draw!

Draw and colour your own planet! What's the name of your planet? What things are there? What colour are they? Are there any animals? Now write about it!
