

How do firefighters put out fires?

1. Match them up!

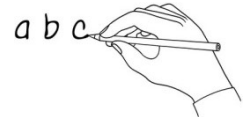

Match the words with the definitions.

a siren	→	the vehicle that firefighters drive to the fire
a fire engine		grey, white or black gas you see in the air when there is a fire
a firefighter		something that makes a loud warning noise
to put out a fire		something with steps that you use to climb up to a high place
a ladder		a person whose job is to stop fires
smoke		an activity where you practise your job, so that you get better
a training exercise		a long tube that water goes through
a hose		to stop a fire burning

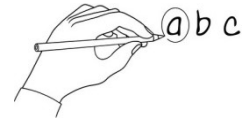

2. Fill it in!

Watch the video. Complete the sentences.

ladder	sirens	hose	put out	Firefighters	smoke
--------	--------	------	---------	--------------	-------

- We hear sirens when the fire engines are on the way.
- Firefighters do training exercises all the time.
- The firefighters are going to put out the fire.
- The firefighters pull out a ladder.
- We can see smoke on the fire tower.
- Water comes out of the hose.

3. Choose the answer!

Watch the video. Circle the correct answer.

- a. The ladder is very _____. **long / short**
- b. The _____ is at the top of the fire tower. **smoke / siren**
- c. The hose is _____. **very small / giant**
- d. Water comes out of the hose very _____. **slowly / fast**
- e. The water can get all the way to the _____ of the fire tower. **top / bottom**

4. Write and draw!

Would you like to be a firefighter? What job would you like to do when you're older? Write about it and draw a picture!
