Play a game with a partner. Ask a friend, a classmate, or someone in your family.

1. Think of an animal. Describe it using comparatives and superlatives. For example: "It's faster than a zebra, taller than an elephant, and it's got the longest neck in Africa."
2. Your partner must guess the animal. For example: "Is it the giraffe?" They can guess 3 times.
3. If your partner is correct the first time, they get 3 points. If they are correct the second time, they get 2 points. If they are correct the third time, they get 1 point. Put the points in the boxes below.
4. Swap! Now your partner describes an animal and you guess!
