

Make a Chinese dragon!

1. Print on card, or stick the dragon's head below onto card. Colour it in. Then cut out the dragon's head and the strip of card. Glue the strip of card to the back of the dragon's head.

2. Make the dragon's body: take two long strips of paper. Put one end of each strip together, but at right angles. Glue the ends together. Fold the strips over each other until you reach the end of the paper. Glue the ends together. Carefully extend the body.

3. Glue the dragon's head to the body. Glue strips of paper or ribbons to the sides of the face for whiskers, and to the end of the body for a tail.
