

'Will' for future predictions

1. True or False.

Read and circle True or False.

I think the future will be very different. Children won't go to school, they'll have a robot teacher who teaches them at home. People won't drive normal cars, there will be special flying cars. As for me, when I grow up I'll be a vet because I like helping animals, and I won't get married until I'm at least 30!
