

## How to make a bookmark

**MELISA:** What's the matter?

**EMILY:** Pff, I can't find the page!

**MELISA:** Hmm. Do you know what we could do?

**EMILY:** No. What?

**MELISA:** We could make a bookmark! What do you think?

**EMILY:** That's a great idea!

Melisa, what do we need?

**MELISA:** We need some coloured paper, scissors and some felt-tip pens.

OK, so the first thing to do is to fold one corner to make a triangle.

Perfect! Then cut off the extra paper.

**EMILY:** So now we've got a square!

**MELISA:** That's right! And now, the folding stage.

First turn it around so it's like a diamond shape. Now bring the bottom corner up and fold it to make a triangle. Then, take the right-hand corner, bring it up and fold. Repeat on the other side.

Open it back into a triangle and bring the top corner down and fold. Then bring the flap over and fold it under. Repeat on the other side.

**EMILY:** Woah! Is it finished?

## How to ...

**MELISA:** Yes, you made it!

**EMILY:** Mmm ... I think it's missing something!

**MELISA:** Really? What?

**EMILY:** Much better!

**MELISA:** Wow, it's scary!

**EMILY:** The bats for the horror stories book ...

**MELISA:** The alien for the science-fiction book ... And the shark?

**EMILY:** For the pirates book!

**MELISA:** We hope you have fun making your own bookmarks!

**MELISA AND EMILY:** Bye!

**MELISA:** Remember! To make a bookmark:

- make a paper square
- fold the square
- decorate it.

That's it! Now you can use your bookmark.
